

U.S. Patent Application No.:10/773,777
Filing Date: 02-06-2004
First Named Inventor: Anand P Narayan
Title: "Systems and methods for parallel
signal cancellation"
Art Unit: 2611
Examiner: BAYARD, EMMANUEL

Date: January 15, 2008

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Comments

Applicants would like to thank the examiner for the allowance of all claims in this Application.

On closer scrutiny, Applicants discovered that a few Claims would become clearer if certain minor amendments were made to the Claims, and Applicants have amended Claims 1, 14, 25 and 36 in accordance with 37 CFR 1.312, and request that the Examiner make an Examiner's amendment to effect the following Amendments. Applicants believe the amendments to be minor and that they do not affect the scope of the Claims.

Applicants are also submitting a payment of \$1020 towards the issue and publication fee.
